

**AAGAM CHEMICALS**

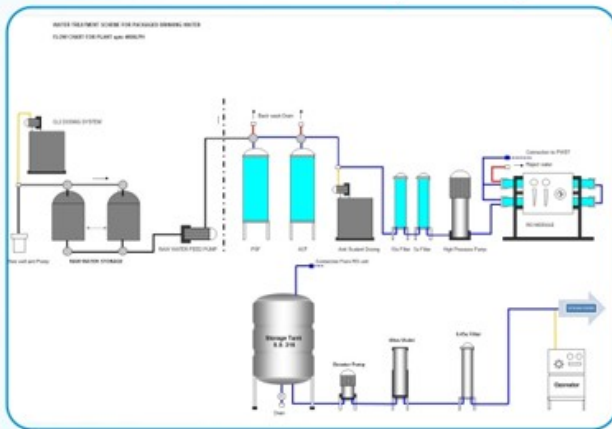

## A Brief Introduction about our Company

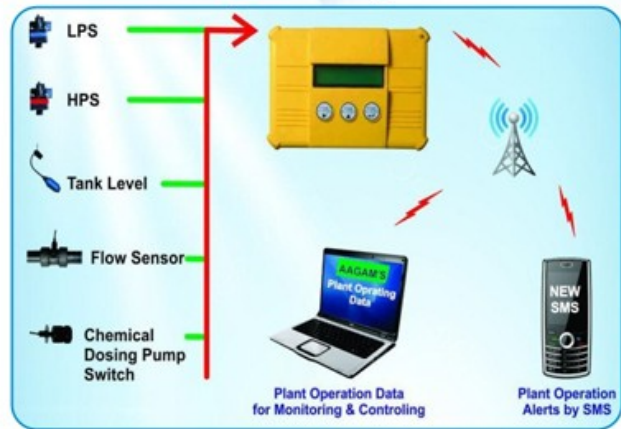

We are ISO 9001:2008 Certified Company and maintaining high standard of quality and after sales service. We are SSI REGISTERED member . The company manufactures packaged RO systems & Ro With Cooler plant for ground, bore well, well, river and tap water applications in standard capacities of potable water production from 8 LPH to 100000 LPH, single, double, triple tube water filters with and without UV attachment, softener plants and DM plants in various capacity, we also design ETP (Effluent Treatment Plant) & STP (Sewage Treatment Plant) Tube statelier as per requirement. We can design, manufacture and install customized systems to meet our clients' requirements. We have supplied more than 100+ industrial plants for various applications like bottled water manufacturers, soft drink manufacturers, hospitals, schools, colleges, industries, corporate offices,etc. and more than 500+ domestic RO plants. We maintain a state of the art technologies and equipment to assist our engineers in the selection and designing of the most effective RO systems for the type of raw water available to each individual client.

This refers to your requirement of water Treatment plant; we take pleasure in submitting our offer to meet your requirement based on Assumed water analysis with output of 25/50/100/200 Liters per hour. If you have any queries, Please do not hesitate to contact us. We are look forward for long and fruitful relation in future. We have our company profile attached in the appendix for more information about our company.

### Water Treatment Scheme for Packaged Drinking Water

### Remote Monitoring Plant

## REVERSE OSMOSIS PLANTS

Reverse Osmosis, also known as hyper filtration, is the finest filtration known. This process will allow the removal of particles as small as ions from a solution. Reverse osmosis is used to purify water and remove salts and other impurities in order to improve the colour, taste or properties of the fluid.

### Domestic Reverse Osmosis Systems

Portable Deionizer Plant (DM)

Water Softener

3 Bed Deionizer Plant (DM)

Industrial R O Systems

SS R O Unit

R O System with Remote Monitoring

SS STORAGE TANK AND POUCH PACKING MACHINE

PET BOTTLE FILLING CAPING AND RESING MACHINE

## Water Chemicals

Aagam Chemicals Offers Water Treatment Chemicals For All Needs To Address A Variety Of Water Treatment Problems Commonly Found In All Types Of Industries.

Typical Application Area Are Sediment Filtration, Iron, Manganese , Ph Correction, Colour Odor, Scaling Removal.

### Products Range

- Resin • All Types of Antiscalent • Anti Pollution Chemicals
- Polyelectrolyte • Descaling Chemicals • Cooling Tower Chemicals

## TRUNKY BASE RO SYSTEM

### Why "AAGAM" ?

1. One of the leading manufacturers of water treatment plants, especially pioneer for Reverse Osmosis System in India. Supply more than 200+ Commercial RO systems and 800+ Domestic RO systems all over India.
2. Supply of Membranes, High Pressure Pumps, Anti Scaling Dosing system, FRP/SS Pressure Vessels, FRP/SS RO membrane housing, Multi port valve, Micron Cartridge Filter and Filter Housing and other RO related components at most reasonable price.
3. All water treatment plants are manufactured In-house at our own workshop.
4. Being the supplier of domestic and commercial membrane along with High Pressure Pumps, Anti Scaling Dosing system, FRP/SS Pressure Vessels, FRP/SS RO membrane housing, Multi port valve, Micron Cartridge Filter and Filter Housing and components in water treatment industry, our prices are very economical compared to our competition.
5. Manual, Semi-automatic, Fully automatic PLC/PCB based water treatment plant with State of Art Reverse osmosis Technology for all purpose.
6. Total strength people in various discipline available at a distance of a telephone call. Assured delivery of materials as per schedule.
7. Team of Engineers, Analyst, Technicians with rich experience in the field of Water Treatment.
8. R & D Department with all latest technology
